USER STORIES

User Stories: ATLAS EdTech Platform

Authentication & User Management

1. User Signup

- As a **student/teacher**, I want to create an account using my email and password, so I can access the platform.
- As a **user**, I want to receive a **verification code/link** after signing up, so I can verify my email.

2. User Signin

- As a **user**, I want to log in securely with my email and password, so I can access my dashboard.

3. Forgot/Reset Password

- As a **user**, I want to request a password reset link/code, so I can recover my account easily.

4. Email Verification

- As a **new user**, I want to verify my email address before accessing content, so the platform can confirm I'm real.

5. Role-Based Access

- As a **student**, I want access only to student-relevant pages.
- As a **teacher**, I want access to teacher dashboards and quiz/course creation.
- As an **admin**, I want full access to analytics, content, and user management.

Teachers

6. Upload Course Materials

- As a **teacher**, I want to upload notes, documents, and videos to my class page.

7. Create Quizzes

- As a **teacher**, I want to create interactive quizzes with multiple question types.

8. Track Student Progress

- As a **teacher**, I want to view individual student performance to tailor support.
-

Students

9. Take Quizzes

- As a **student**, I want to take quizzes and see instant feedback.

10. View Notes

- As a **student**, I want to access downloadable notes and tutorials.

11. Leaderboards

- As a **student**, I want to see my rank on a leaderboard to stay motivated.

12. Personalized Recommendations

- As a **student**, I want the system to recommend content based on my performance.

13. Progress Dashboard

- As a **student**, I want to track my course completion and quiz performance.
-

Admins

14. Manage Users

- As an **admin**, I want to create/edit/delete user accounts and assign roles.

15. Manage Content

- As an **admin**, I want to approve or reject educational content submitted.

16. Analytics Dashboard

- As an **admin**, I want to view analytics on student engagement, completion, and platform usage.
-

★ Platform Experience & Standards

17. Gamification

- As a **user**, I want gamified features like streaks, XP, and achievements to stay engaged.

18. UI/UX

- As a **user**, I want the app to be intuitive, clean, and mobile responsive.

19. Accessibility

- As a **user**, I want the platform to support keyboard navigation and screen readers.

20. Testing & QA

- As a **dev team**, we want unit and integration tests to catch bugs before deployment.

21. Performance

- As a **user**, I want fast page loads and smooth transitions.
-

Team & Collaboration Stories

22. Task Assignment

- As a **project manager**, I want to assign clear roles to devs, designers, and marketers.

23. Communication

- As a **team member**, I want to use Slack/Discord and Trello to track tasks and chat daily.

24. Version Control

- As a **developer**, I want to use Git branches and pull requests to manage code safely.
